PROFILE

Motivated IT undergraduate with a strong foundation in frontend and backend development seeking a Full Stack Developer Intern position to apply technical skills in React, Node.js, and MongoDB while gaining real-world industry experience.

SKILLS

Programming Languages: Java | Python | JavaScript

Frontend: HTML | CSS | React | Tailwind CSS

Backend: Node.js | Express.js

Databases: MongoDB | MySQL

Tools:: Git, GitHub, VS Code, Postman

Methodologies:: Agile, Scrum

EDUCATION

BSc (Hons) in Information Technology Specialising in Software Engineering, Sri Lanka Institute of Information Technology (SLIIT)
2023 – Present

PROJECTS

Customer Support Website, Java, JSP, Servlet
Designed and developed a customer support web application to handle user queries and ticket management.
The system allows users to submit support tickets and track their status while providing admin functionality
for resolving tickets efficiently.
Tech Stack: Java, JSP, Servlets, JDBC, MySQL, HTML, Tailwind CSS

Homemade Product Buying and Selling Platform (MERN Stack)
- Developed authentication, product listing, and order management features.
- Implemented responsive design using Tailwind CSS.
- Improved user experience with optimized React components.
Tech Stack: React, Node.js, Express.js, MongoDB, Tailwind CSS

Demo Link (only Front End) - https://home-made-react-tau.vercel.app/ 🔗

QuickShare - Real-time Device Synchronization Tool (React + Supabase)
- Developed a zero-configuration, client-side application for instant data sharing across devices
- Implemented real-time synchronization using Supabase Realtime channels
- Created an intuitive interface for seamless cross-device data transfer
- Ensured all data remains temporary and in-memory for enhanced privacy

Tech Stack: React, Supabase Realtime, Tailwind CSS
